## **Working Opportunity Fund Announces Revised Asset Allocation Rules for Commercialization Series Shares**

**March 29, 2010, Vancouver, British Columbia** – The Working Opportunity Fund announced today that it has implemented previously announced and shareholder approved, revised investment allocation rules for its Commercialization Series of Class A Shares. These revised rules provide for an earlier pooling of investments, thereby achieving greater diversification among the Commercialization Series and lowering the overall risk profile. Under the new rules, all previously offered Commercialization Series participate in a single, pooled venture investment portfolio.

Further particulars of the revised investment allocation rules are set out in the Fund's current prospectus.
