Commissions, trailing commissions, management fees and expenses all may be associated with investments in retail venture capital funds (RVCs). RVCs are not guaranteed, their values change frequently and past performance may not be repeated. Please read the prospectus before investing in the Working Opportunity Fund (EVCC) Ltd. ¹The income tax rates and taxable income levels are based on federal and provincial (British Columbia) income tax legislation in existence and proposed up to June 30, 2008 and may be subject to change and are the marginal rates for investment income other than capital gains and dividends for individuals resident in the province. ²This assumes that the investor is within his or her 2007 contribution limit and that the income tax rate applies to the full amount of the RRSP investment. RRSP contributions for 2007 must be made on or before the RRSP contribution cut-off date of March 2, 2009. ³The federal and provincial tax credits are generally available provided that the investor has tax otherwise payable against which to offset the tax credits. Tax credits are generally subject to repayment if shares are not held for five years; shares must generally be held for eight years. Federal tax credits are available on the first \$5,000 invested in RVCs each year and provincial tax credits on the first \$13,333 invested in British Columbia. ⁴RRSP tax deductions are available on any RRSP-eligible investment and tax is payable on all amounts withdrawn from RRSPs.
